They provide high quality cases which conform to museum, conservation and national security standards with inbuilt environmental controls and lighting. All the cases will be future proofed to enable maximum flexibility and allow new narratives to be told in the future. In addition, the company we have identified, Meyvaert, offer a supportive and collaborative approach to the build and delivery of the cases. The level of support they provide is through; consultation, design and engineering, project management, manufacturing & installation, training and after sales support. This project is unique in the respect that the delivery of the exhibition and re-interpretation has been developed completely in-house the provision of support through the additional services offered is invaluable to the delivery of this high-profile project. This is the only company offering this inclusive support. Museum cases are a specialist field that meet museum standards of security and environmental controls they are unique products. The external funding covers the cost of the cases so there is no risk to the City Council. The funders will be looking to showcase this project at a national and international level which will serve to promote the museum at the highest level. The quality of cases and design detail will reflect the high standards expected of the project.	29/11/2019	03/05/2021	12 Months	£122,900	£29,496	Meyvaert	Yes	No	No	N/A	28/09/2020	Tender
