

Investigation into the removal of 'Capo', a sculpture by Vincent Woropay

Management Response by Jon Rouse CBE, City Director

Recommendations	City Director Response
That a Chief Officer decision be made retrospectively and published with regard to the Marina Way works and formally appointing Galliford Try.	I have instructed the Director of Housing, Development and Growth to make and publish a Chief Officer decision.
A member consultation email template be introduced so that it is absolutely clear what Cabinet Members are being asked to do and where delegated decision-making authority lies	This is agreed and supported.
That the City Director provide guidance to Directorates on how consultation with elected members should take place to ensure that there is no misconception as to roles and responsibilities.	This is agreed and supported.
Officers must assure themselves of who has authority to make decisions and this should be demonstrated in reports; management should regularly test this understanding through 1-2-1's, PLAN's and the Council's Assurance/Accountability conversations.	This is agreed and supported.
Any regeneration scheme involving a site that contains a work of art, heritage asset or listed structure must have signed Director approval for the scheme before work may commence and that this approval must be based on an expert cultural assessment.	This is agreed and supported.
